Education

ITER, Siksha 'O' Anusandhan University

2019 – 2023

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.75 / 10.00)

Bhubaneswar, India

Experience

Cognizant

Sep 2023 – Present

Associate

Kolkata, India

- Working on American Airlines and Alaska Airlines automation initiatives, ensuring quality across critical customer-facing applications.
- Designed and implemented scalable automation test suites using **Selenium with Java/TestNG, Playwright with TypeScript, and Appium (XCUI for iOS, Espresso for Android)**, increasing automated test coverage by **60%** and ensuring **95%** regression test stability.
- Led the migration of the automation framework from Selenium to Playwright, reducing test execution time by **40%** and significantly improving test reliability across critical workflows.
- Developed and maintained **API test automation** using REST Assured and Postman for microservices validation, covering **50+** API endpoints across multiple services.
- Authored **test plans, strategies, and test charters** for new feature rollouts, collaborating with product managers, developers, and cross-functional teams to define acceptance criteria.
- Integrated automated test suites into **CI/CD pipelines** (Jenkins/Azure DevOps), enabling continuous regression testing on every build and reducing feedback loop time by **30%**.
- Performed **root cause analysis** on production defects by scanning application logs and collaborating with development teams to resolve critical issues.
- Tracked and managed defects using **JIRA**, providing detailed reports with steps to reproduce, severity classification, and first-level root cause analysis.
- Leveraged **GenAI tools** (GitHub Copilot, ChatGPT) for test script generation, debugging, and accelerating test development workflows.

Cognizant

Feb 2023 – Jul 2023

GenC Next Intern

Bengaluru, India

- Executed **functional, regression, integration, and exploratory testing** of applications to ensure new changes did not impact existing functionality, enhancing software reliability.
- Utilized **Java** and **TypeScript** to design comprehensive test cases covering end-to-end functionality, and developed automated test scripts using Selenium and Playwright.
- Worked in an **Agile/Scrum** environment with bi-weekly sprints, participating in sprint planning, daily standups, and retrospectives.
- Collaborated with developers and QA teams to define test strategies and ensure quality gates were met before each release.

HighRadius Technologies

Jun 2022 – Jan 2023

Full Stack Developer Intern

Bhubaneswar, India

- Worked with a team of 6 developers on ExtJS, Struts, Spring, Hibernate, SQL, and Git to develop and maintain software applications using **Agile methodology**.
- Collaborated with cross-functional teams including developers, testers, and project managers to deliver high-quality software products, meeting **82%** of project deadlines.
- Ranked **1 out of 110** interns in top performers list during the training period.

Technical Skills

Automation Testing: Selenium, Playwright, Appium (iOS & Android), REST Assured, Cucumber/BDD, TestNG, JUnit

Languages: Java, JavaScript, TypeScript, Python, Kotlin, SQL

CI/CD & Build Tools: Jenkins, Maven, Gradle, Git, Azure DevOps

API & Performance Testing: Postman, REST Assured

Tools & Platforms: JIRA, Linux, Docker, SonarQube, GenAI (GitHub Copilot, ChatGPT)

Cloud: Azure (AZ-900 Certified), AWS (basic)

Databases: MySQL

Methodologies: Agile/Scrum, Test-Driven Development, BDD
